

# CALIFORNIA ANIMAL OWNERS PROTECT YOUR RIGHTS

**The California Veterinary Medical Board is currently making animal care unaffordable and plans to further limit your freedom to choose who treats your animals.**

## **What this means for you:**

The Board already restricted services like non-veterinarian animal dental work, chiropractic, artificial insemination, and acupuncture. New regulations will likely require that only a veterinarian can do massage, herb and nutritional advice, swim therapy, and even services like, grooming, training, horse hoof care, and caretaking.

---

The new regulations will result in a much greater cost to animal owners and the choices we now have will be eliminated.

**WE CAN STOP THIS WITH A BILL FROM THE LEGISLATURE!**
